## 1. SITUATION/BACKGROUND

This report has been prepared to provide Health Board Chief Executive Officer Members of the Joint Commissioning Committee (JC) with a summary of the key issues considered by the NHS Wales Planning, Performance and Finance (PPF) Sub-Committee at its public meeting on 18 December 2025.

Key highlights from the meeting are reported in Section 2.

## 2. HIGHLIGHT REPORT

(Links to reports highlighted - [December 2025 - NHS Wales Joint Commissioning Committee](#))

| Status                  | Update   |
|-------------------------|--|
| <b>Alert / Escalate</b> | <p>The <a href="#">NWJCC Finance Report - Month 8 2025/26</a> was received. The end of year forecasted financial deficit remains at £7.7m. An increase in lung transplants and activity costs for respiratory disease was noted. This is currently being managed but could become a risk if the increase continues. There is an expectation from Welsh Government that further in-year opportunities will be considered to improve the forecast position. Discussions highlighted the pending need for health boards and the NWJCC to declare their positions. A formal letter will be sent from the NWJCC to health board CEOs in respect to this.</p>  |
| <b>Advise</b>           | <p>The <a href="#">NWJCC Operational Performance Report</a> was received. Discussions noted that work is ongoing to produce a meaningful integrated performance report. The complexity of the work and the capacity required to deliver the report was highlighted. It was acknowledged that whilst an updated report would be shared at Joint Committee in March 2026, which would provide greater assurance than at present, work would continue to refine the report over the following year. A session is scheduled in January with the NWJCC Senior Leadership Team to consider the necessary levers required to hold providers to account through their contracts, recognising the need to be far more robust around performance metrics, measures and management.</p> <p>The <a href="#">Managing Activity Brief</a> was received which provided further financial detail, detail of risks and a plan of action for the three areas of opportunity to support an improvement in this year's financial position. It was noted that a detailed plan had been considered and approved at Joint Committee and is currently being actioned at pace. It was recognised that delivery of agreed actions agreed will have a significant impact on the capacity of NWJCC staff which would need to be managed. Further quality impact assessments will be undertaken as the work proceeds, acknowledging the direct impact of the actions on patients.</p> |
| <b>Assure</b>           | <p>The <a href="#">PPF Organisational Risk Register (ORR)</a> was received for review and scrutiny. It was noted that work to improve the ORR, that is fed into the Sub-Committees and the JC, remained ongoing. Risks were being redefined with commissioner-focused actions and mitigations that support mitigation of risks. A new risk was highlighted (Risk 94 – High-Cost Medicines). Whilst this risk was more significant for the NWJCC and its IPFR function. Additionally, it was noted that health boards had identified several high-cost drugs for transfer to the NWJCC which, if</p>  |

| Status            | Update  |
|-------------------|---|
|                   | approved for transfer, would also have a financial impact for 2025/26 and beyond and would need to be managed.  |
| <b>Inform</b>     | Members received an update on the development of the NWJCC Integrated Medium-Term Plan, noting that feedback received at the JC meeting on 16 December 2025 would be used to develop the plan and that a detailed evidence-based review of the previously agreed 'Must Do's' would be undertaken. Work will continue with health boards throughout January with a view to developing the plan and ensuring alignment with health board IMTPs. This will include a session with Directors of Planning, a detailed review taking place at the extraordinary Collaborative Commissioning Leadership Group meeting of the 22 January. A further update will be provided at the JC meeting of the 27 January 2026. |
| <b>Appendices</b> | None.   |

### 3. ASSESSMENT

| Objectives / Strategy  |  |
