CAMHS	Child and Adolescent Mental Health Services
OP	Outpatient
LHB	Local Health Board
PETIC	Positron Emission Tomography Imaging Centre
IVF	In Vitro Fertility
QAIS	Quality Assurance Improvement Service
OOA	Out of Area

1. SITUATION/BACKGROUND

The NHS Wales Joint Commissioning Committee (NWJCC) was formally established on 1 April 2024, with delegated commissioning authority from Health Boards for services within the portfolios of Ambulance and NHS 111, Mental Health and Learning Disabilities (including Vulnerable Groups), and Specialised Services.

The attached report presents a consolidated view of the NHS Wales Joint Commissioning Committee's (NWJCC) operational performance and delivery against the adopted 2024/25 plans. It includes detailed insights from the Month 12 Operational Performance Report and the Quarter 4 Position Report, reflecting progress across Ambulance and NHS 111 Wales, Mental Health and Vulnerable Groups, Specialised Services, and other commissioned portfolios.

Together, these documents support transparency, assurance, and strategic planning by highlighting system pressures, key risks, service developments, and delivery status. The report also provides an update on workforce compliance and includes links to interactive dashboards where relevant. It is intended to inform senior stakeholders and facilitate evidence-based decision-making as the NWJCC transitions toward its 2026–2029 Integrated Medium-Term Plan (IMTP).

2. KEY INFORMATION FOR MONTH 12

Throughout 2024/25, the NWJCC adopted a phased approach to implementing its transition programme, aimed at consolidating and fully embedding the new organisational structure. In July 2024, Directors were appointed to their respective roles, initiating a period of organisational change. This process largely concluded by March 2025, with only a small number of actions outstanding.

As part of the reorganisation, recruitment activity was temporarily paused in line with HR policy requirements. Consequently, the capacity to fully align resources to key priority areas was limited until all senior and supporting roles, including Directors, were in place. As of early May 2025, the NWJCC was operating at a reduced capacity. This reduced staffing level significantly affected the delivery of planned programmes, necessitating a continually reviewed and prioritised work plan, discussed regularly with the Joint Commissioning Committee.

2.1 Month 12 Operational Performance Report

To support the main body of this report, the Month 12 Operational Performance Report is included as appendix 1. This comprehensive report provides a detailed analysis of NHS Wales Joint Commissioning Committee (NWJCC) commissioned services, covering key metrics such as waiting times, service activity, quality indicators, and workforce compliance. It spans multiple portfolios including Ambulance Services, NHS 111 Wales, Mental Health, Specialised Services, and Planned Care. The report also includes updates on services in escalation, incident trends, and delivery against national targets. Developed to inform evidence-based decision-making, it complements this report by offering a more granular view of system pressures, emerging risks, and provider performance at the end of the 2024/25 financial year. An accompanying interactive Power BI dashboard is available to allow stakeholders to explore and interrogate the data further.

2.2 Quarter 4 Position Report against Plan

The Quarter 4 Position Report provides a comprehensive update against the NWJCC's adopted plans for 2024/25, capturing progress across all commissioned portfolios including Cancer and Blood, Mental Health, Cardiac, Women and Children, Rare Diseases, and Urgent and Emergency Care. Structured around strategic goals, methods, outcomes, and delivery status, the report offers a clear and transparent view of achievements, delays, and reprofiled actions as the Joint Commissioning Committee transitions toward the 2026–2029 Integrated Medium-Term Plan (IMTP).

It brings together key commissioning updates, policy developments, and service transformation activities across NHS Wales, helping stakeholders understand where progress has been made, where risks remain, and how financial constraints have impacted delivery. As such, it supports accountability, strategic planning, and prioritisation discussions and is included in full as an appendix to this report.

Any actions that were not completed this year have been considered and noted for with the appendix for the 2025/26 foundation plan or the NWJCC strategy to be developed.

3. ASSESSMENT

Objectives / Strategy	
Dolen i Amcan (au) Strategol CBC Link to JCC Strategic Objectives(s)	Maximise Value

Effaith Adnoddau <i>(Pobl /Ariannol) /</i> Resource Impact <i>(People / Financial)</i>	There is no direct impact on resources as a result of the activity outlined in this report.	

4. RECOMMENDATIONS

The Joint Commissioning Committee is asked to:

- **Discuss** the performance information for services commissioned by the NHS Wales Joint Commissioning Committee contained within the appendix; and
- **Note** the on-going work to align indicators and metrics into an integrated performance report for the JCC.
